B.C.A. (Commerce) (Part - II) (Semester - III) Examination, November - 2019

System Analysis and Design (Paper - 303)

Day and Date: Friday, 08 - 11 - 2019 Time: 11.00 a.m. to 02.00 p.m. Instructions: 1) Attempt any five questions. 2) Figures to the right indicate full marks. Q1) What do you mean by feasibility study? Explain different feasibilities considered before development of system. [16] Q2) a) What is report? Explain different types of report. b)' Explain need and importance of software maintenance. [8] Q3) a) What is software testing? Explain types of software testing. b) Write the guidelines for designing data entry screen. [8] Q4) a) What is maintenance? Explain different types of maintenance. b) What is system? Write the characteristics of system. [8] Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design c) Sequential access file	Sub. Code: 63398			
Time: 11.00 a.m. to 02.00 p.m. Instructions: 1) Attempt any five questions. 2) Figures to the right indicate full marks. Q1) What do you mean by feasibility study? Explain different feasibilities considered before development of system. [16] Q2) a' What is report? Explain different types of report. [8] b' Explain need and importance of software maintenance. [8] Q3) a) What is software testing? Explain types of software testing. [8] b) Write the guidelines for designing data entry screen. [8] Q4) a) What is maintenance? Explain different types of maintenance. [8] b) What is computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. [8] b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. [8] b) Draw ERD for College system. [8]	Day and D	Oate : Friday, 08 - 11 - 2019	Total Marks: 80	
Instructions: 1) Attempt any five questions. 2) Figures to the right indicate full marks. Q1) What do you mean by feasibility study? Explain different feasibilities considered before development of system. [16] Q2) a' What is report? Explain different types of report.				
 Q1) What do you mean by feasibility study? Explain different feasibilities considered before development of system. [16] Q2) a´ What is report? Explain different types of report. Explain need and importance of software maintenance. [8] Q3) a) What is software testing? Explain types of software testing. [8] b) Write the guidelines for designing data entry screen. [8] Q4) a) What is maintenance? Explain different types of maintenance. [8] b) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. [8] b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. [8] b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): [16] a) DFD b) Input design 		s: 1) Attempt any five questions.		
before development of system. Q2) a´ What is report? Explain different types of report. b´ Explain need and importance of software maintenance. Q3) a) What is software testing? Explain types of software testing. b´ Write the guidelines for designing data entry screen. Q4) a) What is maintenance? Explain different types of maintenance. b´ What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b´ Draw 0 th × 1 st level DFD for library system. Q7) a) What is file? Explain different types of files. b´ Draw ERD for College system. Q8) Write short notes on (Any Two): a´ DFD b〉 Input design		2) Figures to the right indicate full marks.		
before development of system. Q2) a´ What is report? Explain different types of report. b´ Explain need and importance of software maintenance. Q3) a) What is software testing? Explain types of software testing. b´ Write the guidelines for designing data entry screen. Q4) a) What is maintenance? Explain different types of maintenance. b´ What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b´ Draw 0 th × 1 st level DFD for library system. Q7) a) What is file? Explain different types of files. b´ Draw ERD for College system. Q8) Write short notes on (Any Two): a´ DFD b〉 Input design				
before development of system. Q2) a´ What is report? Explain different types of report. b´ Explain need and importance of software maintenance. Q3) a) What is software testing? Explain types of software testing. b´ Write the guidelines for designing data entry screen. Q4) a) What is maintenance? Explain different types of maintenance. b´ What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b´ Draw 0 th × 1 st level DFD for library system. Q7) a) What is file? Explain different types of files. b´ Draw ERD for College system. Q8) Write short notes on (Any Two): a´ DFD b〉 Input design	01) Wha	t do you mean by feasibility study? Explain different feas	ibilities considered	
Q2) a)What is report? Explain different types of report. Explain need and importance of software maintenance.[8]Q3) a)What is software testing? Explain types of software testing. Write the guidelines for designing data entry screen.[8]Q4) a)What is maintenance? Explain different types of maintenance. What is system? Write the characteristics of system.[8]Q5)What is Computer based system? Explain different phases of SDLC with various activities involved in each phase.[16]Q6) a)Explain Interview and questionnaire techniques in detail. b)[8]Draw 0th × 1st level DFD for library system.[8]Q7) a)What is file? Explain different types of files. b)[8]Q7) a)What is file? Explain different types of files. b)[8]Q8)Write short notes on (Any Two) : a) DFD b) Input design[16]	befor	re development of system.	[16]	
b) What is report: Explain therefore software maintenance. [8] Q3) a) What is software testing? Explain types of software testing. b) Write the guidelines for designing data entry screen. [8] Q4) a) What is maintenance? Explain different types of maintenance. b) What is system? Write the characteristics of system. [8] Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [8] Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] [8] [8] [8]			191	
Q3) a) What is software testing? Explain types of software testing. Write the guidelines for designing data entry screen. Q4) a) What is maintenance? Explain different types of maintenance. What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] [8] [8] [8] [8] [8]	Q2) a)	What is report? Explain different types of report.	- [마스크리티 및 H.	
b) Write the guidelines for designing data entry screen. [8] [9] [9] [9] [9] [9] [9] [9]	b)'	Explain need and importance of software maintenance	c. [º]	
b) Write the guidelines for designing data entry screen. [8] Q4) a) What is maintenance? Explain different types of maintenance. [8] b) What is system? Write the characteristics of system. [8] Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. [8] b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. [8] b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design	(2) -)	What is software testing? Explain types of software to	esting. [8]	
 Q4) a) What is maintenance? Explain different types of maintenance. [8] Dy What is System? Write the characteristics of system. [8] Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. [8] Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. [8] Draw ERD for College system. [8] Q8) Write short notes on (Any Two): [16] DFD Input design 		Write the guidelines for designing data entry screen.	[8]	
b) What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design	U)			
b) What is system? Write the characteristics of system. Q5) What is Computer based system? Explain different phases of SDLC with various activities involved in each phase. [16] Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design	04) a)	What is maintenance? Explain different types of main	itenance. [8]	
various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0 th × 1 st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design		What is system? Write the characteristics of system.	[8]	
various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0 th × 1 st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design		Explain different nha	ses of SDLC with	
 Various activities involved in each phase. Q6) a) Explain Interview and questionnaire techniques in detail. b) Draw 0th × 1st level DFD for library system. Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. Q8) Write short notes on (Any Two): a) DFD b) Input design 	<i>Q5</i>) Wh	at is Computer based system? Explain different plan	[16]	
b) Draw 0 th × 1 st level DFD for library system. [8] Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design	varı	ous activities involved in each phase.		
b) Draw 0 th × 1 st level DFD for library system. Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design	06) a)	Explain Interview and questionnaire techniques in de	tail. [8]	
 Q7) a) What is file? Explain different types of files. b) Draw ERD for College system. Q8) Write short notes on (Any Two): a) DFD b) Input design 		Draw 0th × 1st level DFD for library system.	[8]	
b) Draw ERD for College system. [8] Q8) Write short notes on (Any Two): a) DFD b) Input design			10.	
Q8) Write short notes on (Any Two): a) DFD b) Input design	Q7) a)	What is file? Explain different types of files.		
a) DFD b) Input design	b)	Draw ERD for College system.	lo	
a) DFD b) Input design	00) 117	the short notes on (Any Two):	[16	
b) Input design
