 - vi) They were wondered at what they saw in the garden.

Q3) Identify the cohesive devices giving their types in the given passage. [4]

In the olden days, goldsmiths who accepted gold deposits realized that the depositors made use of the gold receipts given by them for further transactions and did not come back to take away their gold. Then they began to lend some of this gold to the other needy people charging them some interest for it. This is how the gold was put into circulation by the bankers of the olden days. Modern banks also have learnt much from their practice.

Q4) a) Identify the mode (Speech or writing) of the given discourse by giving two characteristics. [4]

Human personality is influenced by a wide variety of factors which often act in conjunction. The two most broad factors that have been found to shape human personality development are the biological factors and the socio - cultural factors. Within the biological factors are included genes, chromosomes, neuro - chemical processes, especially the hormones secreted by various glands. Improper functioning of hormonal glands can bring about a wide variety of physical, psychological and emotional changes in the individuals. Socio - cultural factors also play an important role in the moulding of an individual's personality. Education, mannerisms, values, attitudes, beliefs, morals, ethics, prejudices and certain specific behaviours are to a greater extent determined by our family and cultural environment.

- b) Identify the register/domain of the given discourse giving two characteristics. [4]

Mumbai, March 7: Yesterday, from 5 p.m. to 8 p.m., hundreds of trucks, tankers, cars and two - wheelers were caught in the traffic snarl from Dockyard Road to Carnac Bridge Junction and from Byculla Bridge to Mahatma Phule Market. It was learnt from reliable sources that the situation had been caused by a huge political procession going past the Brihan - Mumbai Municipal Corporation building to Mantralaya. It being the peak hour for traffic made the matter worse. Many vehicle owners who tried to avoid traffic jam by using the interior roads and lanes found themselves going in circles. The police and R.T.O. personnel found it difficult to maintain order.
